

MINISTRY OF DEFENCE
(Acquisition Wing Secretariat)

Subject: Amendment to list of Civil Aerospace Products-Defence Procurement Procedure, 2011.

The list of Civil Aerospace Products eligible for discharge of Offset Obligations given at Sl No. 3 of Annexure VI to Appendix D of Chapter 1 of DPP-2011 is revised as under:

- Design, Development, Manufacture and Upgrade of all types of fixed wing and rotary wing aircraft or their airframes, aero engines, avionics, instruments and related components.
- Composites, forgings and castings for the products.
- Training Aids viz simulators, associated equipment, software and computer based training modules.
- Guidance and Navigation Equipment.
- Test facilities and equipment required for testing, certification, qualification and calibration of the above products.
- Software specially designed, developed or modified for the above products.

Note: Where Offset arrangements envisage provision of equipment by foreign vendor/OEM as a "grant" (without being linked to a commercial arrangement), then it should be to a DPSU or a Government entity, till such time the matter is examined further.

2. The above changes will come into force with immediate effect.
